

Did You Know?

Each day 10,000 humans are born in the United States and each day 70,000 puppies and kittens are born. As long as these birth rates exist, there will never be enough homes for all the animals.

As a result millions of healthy puppies, dogs, loving kittens, and cats, face early deaths as a form of animal control. Others are left to fend for themselves against automobiles, the weather, other animals, and cruelty.

What can you do to end the suffering? ***SPAY and NEUTER YOUR PETS!***

An unspayed female dog, her mate and all of their offspring, plus the offspring's puppies, if none are ever neutered or spayed add up to:

1 year – 16

2 years – 128

3 years – 512

4 years – 2,048

5 years – 12,288

6 years – 67,000

For referrals to participating low-cost spay/neuter programs, call toll-free
